Food supplement
90 capsules

Content: e 53 g

Brown seaweed: Contains a wide range of secondary plant substances and other substances.

Vitamin E: Contributes to protection from oxidative stress

Zinc: A versatile and therefore the most important trace element, zinc contributes to a normal carbohydrate metabolism and DNA synthesis, and helps to maintain normal bones, nails and hair.

Important information: Do not exceed the recommended daily intake of food supplements. They should not be used as a replacement for a balanced and varied diet and healthy lifestyle and must be stored in a cool, dry place away from direct light and out of the reach of young children.
